  - Zero Errors
- All hospital data received 3 months ahead of deadline
  - Zero missed cases

---

---

---

---

---

---

---

---

### By the Numbers

- As of June 30<sup>th</sup> - 93% complete!!!!
  - 2007 cases
- Number of new cases abstracted and processed last year ~ 165,000
  - Hospital
  - Radiation therapy
  - Ambulatory surgery
  - Pathology
  - Physician offices
  - Mortality
  - Out of State

---

---

---

---

---

---

---

---

### Year in Review

- Database revisions
  - Edits enhancement
    - CS 01.04
- Procedural enhancements
  - On-line QC (every 35<sup>th</sup>)
  - On-line follow-back
    - AHCA
    - Ambi-surgery
- E-mail communication
  - Data awaiting review/download
  - Educational teleconferences/webinars
  - Registrar and Monthly Memo

---

---

---

---

---

---

---

---

### Year in Review

- Data Linkages
  - National Death Index
    - Share results with reporting facility
  - Medicare/NCHS linkage (proposed)
- Address geocoding issues
  - New vendor
  - Improved edits
- Enhanced multiple primary algorithm
  - Basis for national software module
- Web-based
  - Data Dissemination
    - Web-based interactive rates
    - Age grouping on the fly
    - State of Florida comparisons
  - Monograph Series

---

---

---

---

---

---

---

---

### Year in the Future

- Web-based
  - Education/training
  - Mortality follow-back
  - RT follow-back
- Expand QC review criteria
  - Class 3 dx in Florida (unduplicated records)
  - Male breast
  - Pediatric review
  - Ill defined sites (primary and morphology)
  - SS #

---

---

---

---

---

---

---

---

### Process Improvement

- Last Session today
- 2 Questions – blue and green pages
- Round table discussions
  - Recorder
  - Reporter
- Re-convene as a group

---

---

---

---

---

---

---

---

---

---
