

## 2012 Jean Byers Abstractor Award Recognition

Each year FCDS recognizes and presents the Jean Byers Award for Excellence in Cancer Registration to those facilities that have met or exceeded the national quality standards for timeliness and completeness in cancer reporting.

We recognize that the facilities that achieve this quality standard are staffed by outstanding professionals that made it possible for the facility to be recognized with this award.

This year we are recognizing those individuals that contributed to a facility winning this award by presenting a certificate for Excellence in Cancer Reporting to all abstractors that submitted cases for the winning facilities.

This certificate is a way for FCDS to show our gratitude and appreciation to those individuals that were responsible for helping a facility reach this exceptional quality standard. Thank you for your continued support and dedication.
