

SUCSESSES AND FAILURES OF 2018 IMPLEMENTATION

I feel like a fish out of water.

MEMORIAL CANCER INSTITUTE

- 6 hospitals, including 1 pediatric hospital
 - 4,000 analytic cases per year
 - 8,000 total FCDS abstracts per year
- Staffing
 - 1 registry manager
 - 7 full-time certified abstractors
 - 1 part time certified abstractor
 - 2 registry technicians
 - 2 quality staff

TRAINING & EDUCATION

- Coding & Staging Manuals
 - 2016 through July 2019.....
 - What edition are we on?
- Webinars
 - Conflicting information
 - Poll questions
 - 80+ hours per abstractor
- Conferences
- Social Media

SOFTWARE & UPLOADS

- METRIQ Upgrade

- January 30, 2019

- No state metafiles
 - Multiple erroneous edits

- May 17, 2019

- Full edits available

- Uploads

- May 23, 2019

- NCDB upload of 25,000 cases

- June 7, 2019

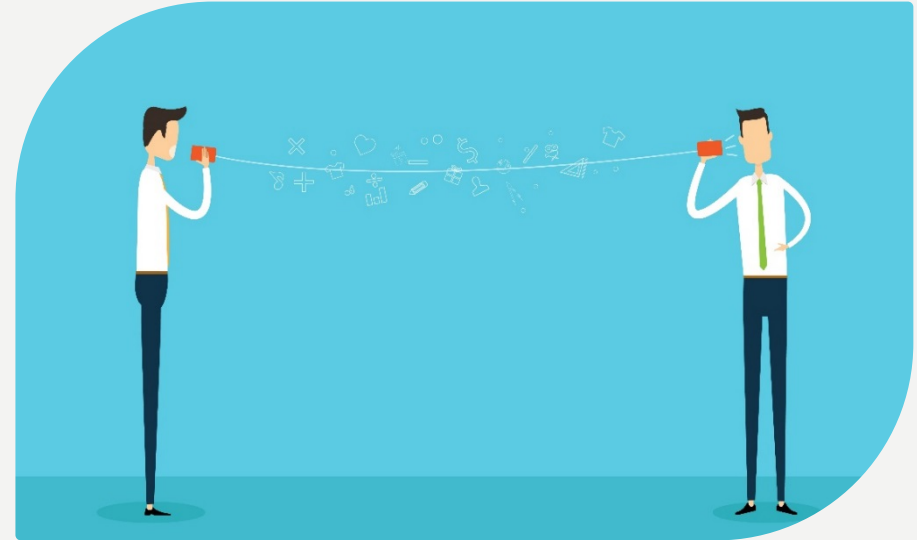

- First successful FCDS upload
 - 2,500 cases accepted
 - Pending cases unable to transmit

2018 ABSTRACTING

- Backlog and current status
- Weekly meetings
- Shared folders
- Networking
- Quality over quantity
- RQRS requirements
- Workflow changes
 - RQRS
 - NCDB Call for Data 4/1/19 – 6/30/19
 - FCDS Consolidated Follow Back
 - Site-specific certifications

COMMUNICATING WITH STAKEHOLDERS

- Cancer Committee
- Survivorship Care Plans
- Research feasibility studies
- Physician data requests
- Executive updates
- ASCO Quality Oncology Practice Initiative (QOPI)
- Oncology Care Model (OCM)

WHAT DOES THE FUTURE HOLD?

- No major changes through 2020
- Proposed revision to CoC standards
- Staffing shortages
- New students/CTRs
- Credibility

Thank you
