# Solid Tumor Rules: 2025 Update

- The latest update was in November 2024.
- Should be used as soon as they are released.
- Each update contains start years for when new codes become valid and when new instructions become active.
- ***If no date is associated with a newly added code or instruction, it can be applied back to 2018 (or 2021 or 2023 for Melanoma and Other Sites, respectively).***
- Subtype histology codes were added to NOS histology codes for various site groups:
  - Breast
  - Head and Neck
  - Kidney
  - Malignant CNS
  - Non-Malignant CNS
  - Other Sites
  - Urinary
- Other changes involve new terminology, clarifications of equal or equivalent terms, and distinctions between terms that are not equal or equivalent.

Thank you!
