

**Cancer Registry Data Use:
Really Outside the Box**

Presented By:
Norine L. Oplt, CTR
Manager, Cancer Registry
Midwestern Regional Medical Center

Really Outside the Box

- ◆ Know your Database
 - What do you have?
 - ◆ A database with hundreds of data elements and the ability to retrieve that information in a customized format

Really Outside the Box

- ◆ How can others use your data?
 - ◆ They can't ask for something until they know what you have
 - **Be an advocate for your registry**
 - **When you hear others talk, always keep your data set in mind**

Don't Wait to be Asked!

- ◆ Listen to your fellow employees
 - What are they doing in their departments
 - ◆ Motion for Life
 - ◆ Vitamin D use
 - ◆ Quality of Life

Don't Wait to be Asked!

- ◆ Offer to warehouse data instead of building more databases
 - ◆ AfterCare Program
 - ◆ Naturopathy

Don't Wait to be Asked!

- ◆ Always keep your ear to the ground
 - Research protocols
 - ◆ Do your researchers know if your patient population can support a study's criteria?
 - ◆ Develop a Core Data Set

Don't Wait to Be Asked!

- ◆ Does your finance department know what cancers get the best reimbursement?

Don't Wait to Be Asked!

- ◆ Does your finance department know how much is charged for a lung cancer that has surgery vs. a lung cancer that gets radiation therapy?
 - Is there a difference when bringing stage of disease into the equation?

Don't Wait to Be Asked!

- ◆ Reimbursement ratio for intravenous chemotherapy vs. oral
- ◆ What is the financial benefit to your institution for offering screening programs?
- ◆ Based on co-morbid codes, are there more services that can be offered to your oncology patient?

Get the Word Out!

- ◆ Recently acknowledged for contributing to a policy change in the Georgia legislature on determining the definitions for Certificates of Need
- ◆ Supporting bench research
 - Ovarian vaccine study

Use Your Software!

- ◆ Using your software user defined fields
 - Allows you to:
 - ◆ Increase the number of data fields
 - ◆ Customizes your database

Teaming Up With Other Departments

- ◆ AfterCare Program
 - Who is eligible
 - When were they last seen
 - What is the patients cancer status

Teaming Up With Other Departments

- ◆ Administration
 - Patient satisfaction survey
 - Where are your patients coming from, locally or nationally
 - Index only cases
 - ◆ How many come for consult, but don't stay for cancer directed therapy
 - **This has been a big project of the Board of Directors**

Teaming Up With Other Departments

- ◆ Physicians
 - Warehouse data elements specific to a disease
 - ◆ Pancreas
 - **Evidence of jaundice, abdominal pain, weight loss history of pancreatitis, on-set from symptoms to diagnosis**

Teaming Up With Other Departments

- ◆ Nutrition Department
 - Vitamin D
 - ◆ Height at diagnosis
 - ◆ Weight at diagnosis
 - ◆ Menopause status

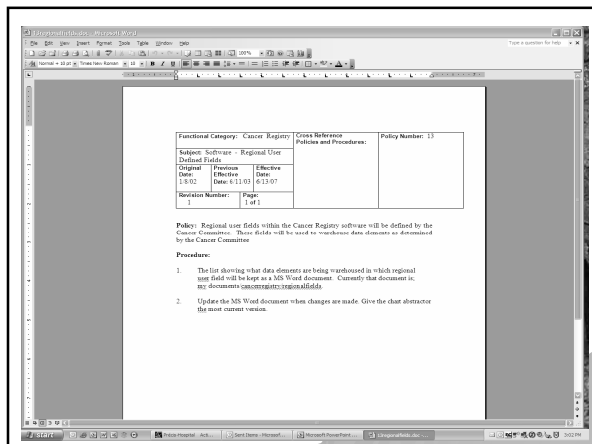

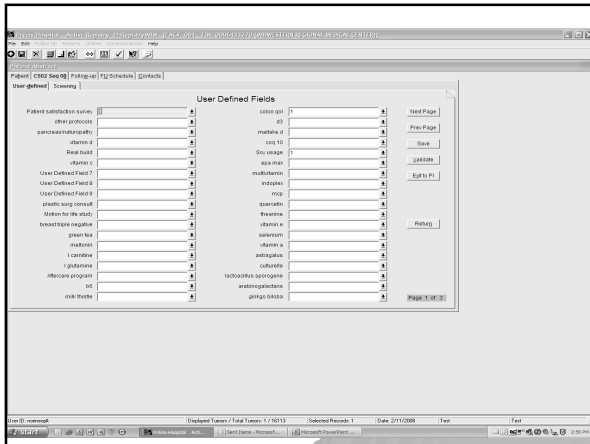

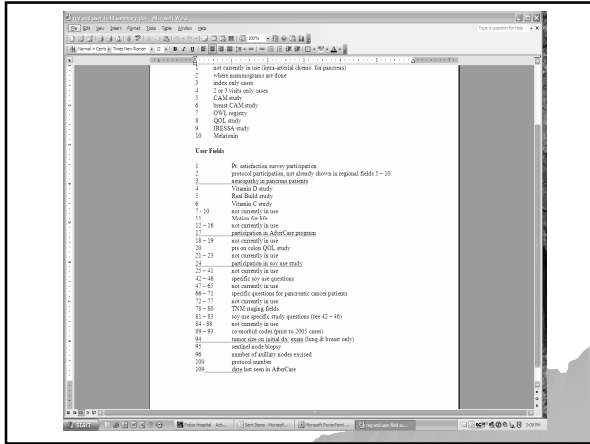

Patient Profiles

- ◆ Developing patient profiles for your Marketing Department
 - Compare your incidence to national data
 - ◆ Age at diagnosis
 - ◆ Gender
 - ◆ Co-morbid conditions

Patient profiles

- ◆ Are there services you could be offering
 - How many facilities has a patient been to prior to coming to your facility
 - Smoking history
 - Treatments offered by both disease sites and stage
 - Specific radiation therapy treatment data
 - ◆ IMRT etc

The Surveyor Helps Those Who Help Themselves!

- ◆ If you don't have data fields for CAP protocols, use a user defined field

The Surveyor Helps Those Who Help Themselves!

- ◆ Document the percentage of patients going on research protocols
 - Develop a procedure with your Research Department that notifies you which patients go on study and which study they went on

Summary

- ◆ Listen
- ◆ Learn
- ◆ Volunteer
- ◆ Be the data guru at your facility

Tip

- ◆ When you are always offering, and producing a usable product, you and your staff will not be overlooked
