

National Program of Cancer Registries
U.S. Cancer Statistics Registry for Surveillance

FLORIDA CANCER DATA SYSTEM

Provides critical and high-quality data that are included in the official federal statistics on cancer incidence and mortality, United States Cancer Statistics (USCS). USCS data are used to assess the cancer burden, inform and evaluate prevention efforts, and address disparities. USCS is produced annually by the U.S. Centers for Disease Control and Prevention (CDC) and the National Cancer Institute (NCI).
