

Physician Office
Data Entry
Webinar and
Documentation

Presented by
Jill MacKinnon, PhD
Monique Hernandez, PhD
Michael Thiry
Steven Peace
Patricia Stearns
Tara Hylton

2

Welcome to the physician
office data entry module
webinar

- Learn how to access the data entry module
- Understand the difference between the two different data entry forms
- Navigate to the technical manuals developed for physician office reporting

3

Physician Office Data Entry

- This webinar/documentation is designed for only those physician offices that have
 - Already registered their physician
 - Received their login credentials
 - Have chosen Single Entry as their data transfer method
- This webinar/documentation is **NOT** intended for physician offices that
 - Chose Claims Upload method as their data transfer method

4

Physician Registration

- Before you can begin the physician office data entry modules you must first register your physician
- If you have not already registered your physician and do not have your log in credentials, the registration instructions and recorded Webinar are on the FCDS Physicians page

<https://fcds.med.miami.edu/inc/physicians.shtml>

5

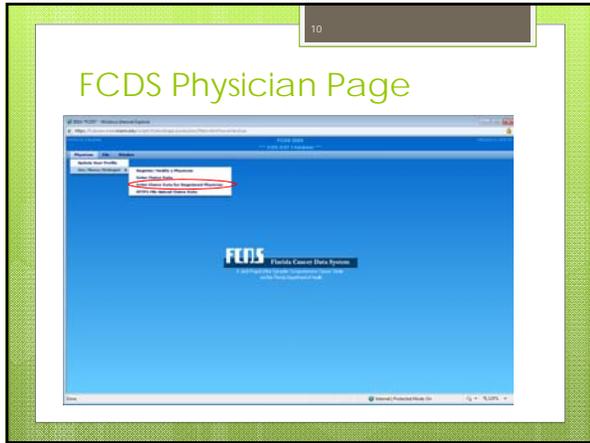

Physician Page

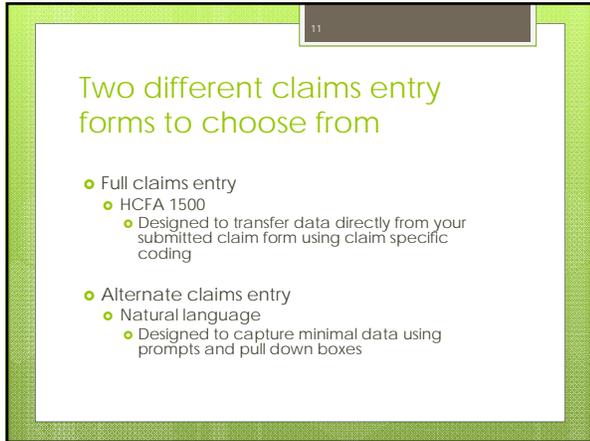

- Registration Webinar recorded
- Physicians' Cancer Reporting Manual
- Tutorials

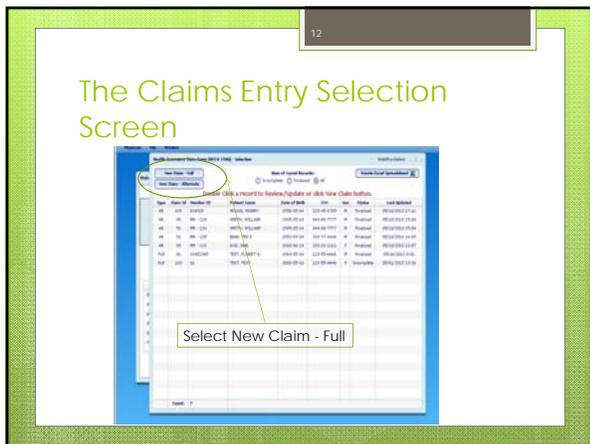

6

During your registration process your office chose single data entry

- To activate the single data entry module, you must first log on to the FCDS system
- Utilizing your log in credentials takes you to the secure web page behind the FCDS firewall
- Your data are entered/viewed securely via the FCDS IDEA page

13

The Claims Entry Selection

From this screen you can:

- Enter New Claims (either Full or Alternate) by clicking on the desired entry form
- Create an Excel Spreadsheet of the record already entered that are contained on the screen
- View finalized records previously entered by clicking on the desired record

14

Full Claims Entry Form HCFA 1500

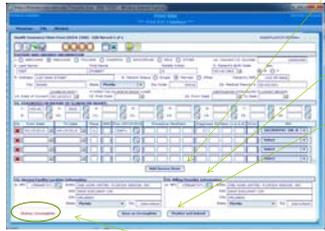

15

Full claims entry – HCFA 1500

Completed HCFA1500 Form

16

- If you need more than 4 services, click 'Add Service Row' to create a new entry.
- Hold mouse Diagnosis or CPT/HCPCS for description.
- NPI drop down list only Physician's that the user has either registered or associated with
- Buttons:
 - 'Save as Incomplete' - to save data entered to finalize at a later date.
 - 'Finalize and Submit' - marks the record as complete and submits the completed claim to FCDS for processing.

Status indicator - bottom left

Finalized Record

17

A "finalized record" will display in "View" only mode (no updating is allowed).

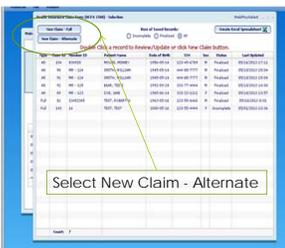

To exit, click the 'X' in the top right corner.

Alternate Claims Entry

18

19

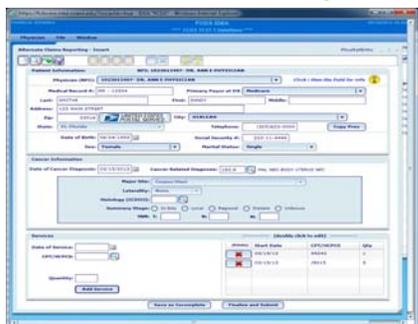

The Claims Entry Selection Screen

Select New Claim - Alternate

20

Alternate Claim Entry Form

21

Alternate Claim Entry Form

This is a record in Entry Mode as signified in the screen title 'Alternate Claims Reporting - Insert'

To save as incomplete all of the Patient Information, the DX date and Diagnosis must be entered.

All fields in the blue box (Major Site, Laterality, Histology, Summary Stage and TMN) are optional and will reduce potential follow back on any unreported patient

Only FCDS Cancer Related Diagnosis are accepted.

To finalize the record, one service must be entered as well as the Patient Information, DX date and Diagnosis.

22

Alternate Claim Entry Form

Pull down list

Search for appropriate response

Enter service information and click 'Add Service'

23

Alternate Claim Entry Form

Optional: Reduce potential Follow back

24

Physician Cancer Reporting Manual

Download from FCDS Web site

<http://fcds.med.miami.edu/inc/physicians.shtml>

25

When to report

- Submit a complete form (using either data entry form):
 - After the first patient visit
 - You only report a patient/tumor one time
- Please begin submitting data on patients seen in your office on or after June 1, 2013
