

Enhancing Florida's Cancer Surveillance and Registry Data: Implementation of Physician Office Data Capture

Dr. Youjie Huang
DOH State Director of Cancer Registry Operations

Tara Hylton
DOH Cancer Epidemiologist

Dr. Jill A. MacKinnon
FCDS Project Director

Today's Webinar

- ▶ Audience: Medical Oncologists, Hematologic Oncologists, and Urologists office staff
- ▶ Cancer Surveillance in Florida
- ▶ Role of Florida Cancer Data System
 - Existing data capture model
 - New data capture model
- ▶ Getting started
 - Registration
 - Data Submission
- ▶ Questions

Florida Cancer Data System Background

- ▶ Legislatively Mandated – 1978
 - DOH was mandated to collect health information on all cancers diagnosed and treated in the state and enforce compliance
- ▶ Statewide, Population-Based, Incidence

Reporting Legislation

Florida Statute 385.202 provides for the establishment of a statewide cancer surveillance system

- Facility Reporting covered under
 - Florida Statute 395 – Hospitals
 - Florida Statute 408.07 – Radiation therapy centers
- Physician Reporting covered under
 - Florida Statute 391
 - Florida Statute 483
 - Rule 64D3

Florida Cancer Data System

- ▶ Incidence Only
 - Snapshot of patient/cancer at time of diagnosis and first course of therapy

- ▶ Annual data submission (100% electronic)
 - 185,000 Cancer Records
 - ~ 115,000 Incidence
 - 150,000 Death Records
 - ~ 500,000 Inpatient Discharge Records
 - ~ 500,000 Outpatient/Ambi Surgery discharge
 - Over 1 million pathology records

HIPAA and Data Security

- ▶ FCDS is legislatively mandated public health surveillance
 - Exempt from the data release provisions in HIPAA
- ▶ No patient Release of Information is necessary

No HIPAA Issues

- ▶ Data transfer using state of the art web-based secure and encrypted transfer protocols
- ▶ Encrypted database
- ▶ Database behind 2 firewalls

Data Security

Current Facility–Based Procedures

(Hospitals, RT and Ambi Surgical facilities)

- ▶ A professional abstractor completes a full and complete abstract on each cancer patient
 - Using nationally prescribed standards and codes
 - Take approximately 30–60 minutes to complete

Cancer Dx/Management Model is Changing

- ▶ The diagnosis and management of cancer has evolved and no longer fits the model implemented in the late 1970's when FCDS designed the data collection structure
 - Diagnosis and treatment of many cancers shift from the hospital to the private practitioner's office

Cancer Dx/Management Model is Changing

- ▶ As more and more cancer patients become cancer survivors, more information is needed by the medical community to improve the quality of life for our cancer survivors
- ▶ Survival is no longer the only salient endpoint

Ramifications of old Model on Cancer Surveillance

- ▶ Underestimates of the incidence of certain cancers
 - Diagnosis/treatment taking place outside hospital
- ▶ Treatment incomplete
 - Not capturing the full first course of treatment
 - Specifically chemotherapy

Ramifications of Under Reporting and Incomplete Data on the Cancer Patient

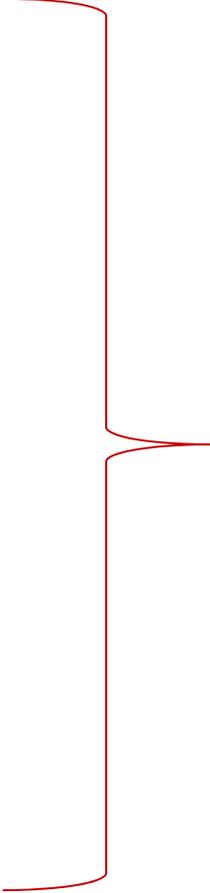

- ▶ Data used by policy makers
 - Misallocation of funds and services
 - Inability to identifying areas/subgroups in need
- ▶ Data used by researchers
 - Incorrect/ incomplete/misleading:
 - Sampling frame for patient studies
 - Data for hypothesis driven research
 - Trends over time

Overview of the New Model

Integrating/Consolidating Data from Multiple Sources

- ▶ Hospitals
- ▶ Ambulatory Surgery Centers
- ▶ Radiation Therapy Centers
- ▶ Pathology laboratories
- ▶ Mortality

- ▶ Physician offices
 - Diagnosing or treating cancer

Result:
a more complete
picture

Impact on Physician Office

- ▶ Minimal operation/financial impact
- ▶ 100% electronic submission – No paper forms to complete
- ▶ Two reporting Options
 - 1) Electronic using existing data or
 - 2) Single entry

Physician Office Reporting Option 1

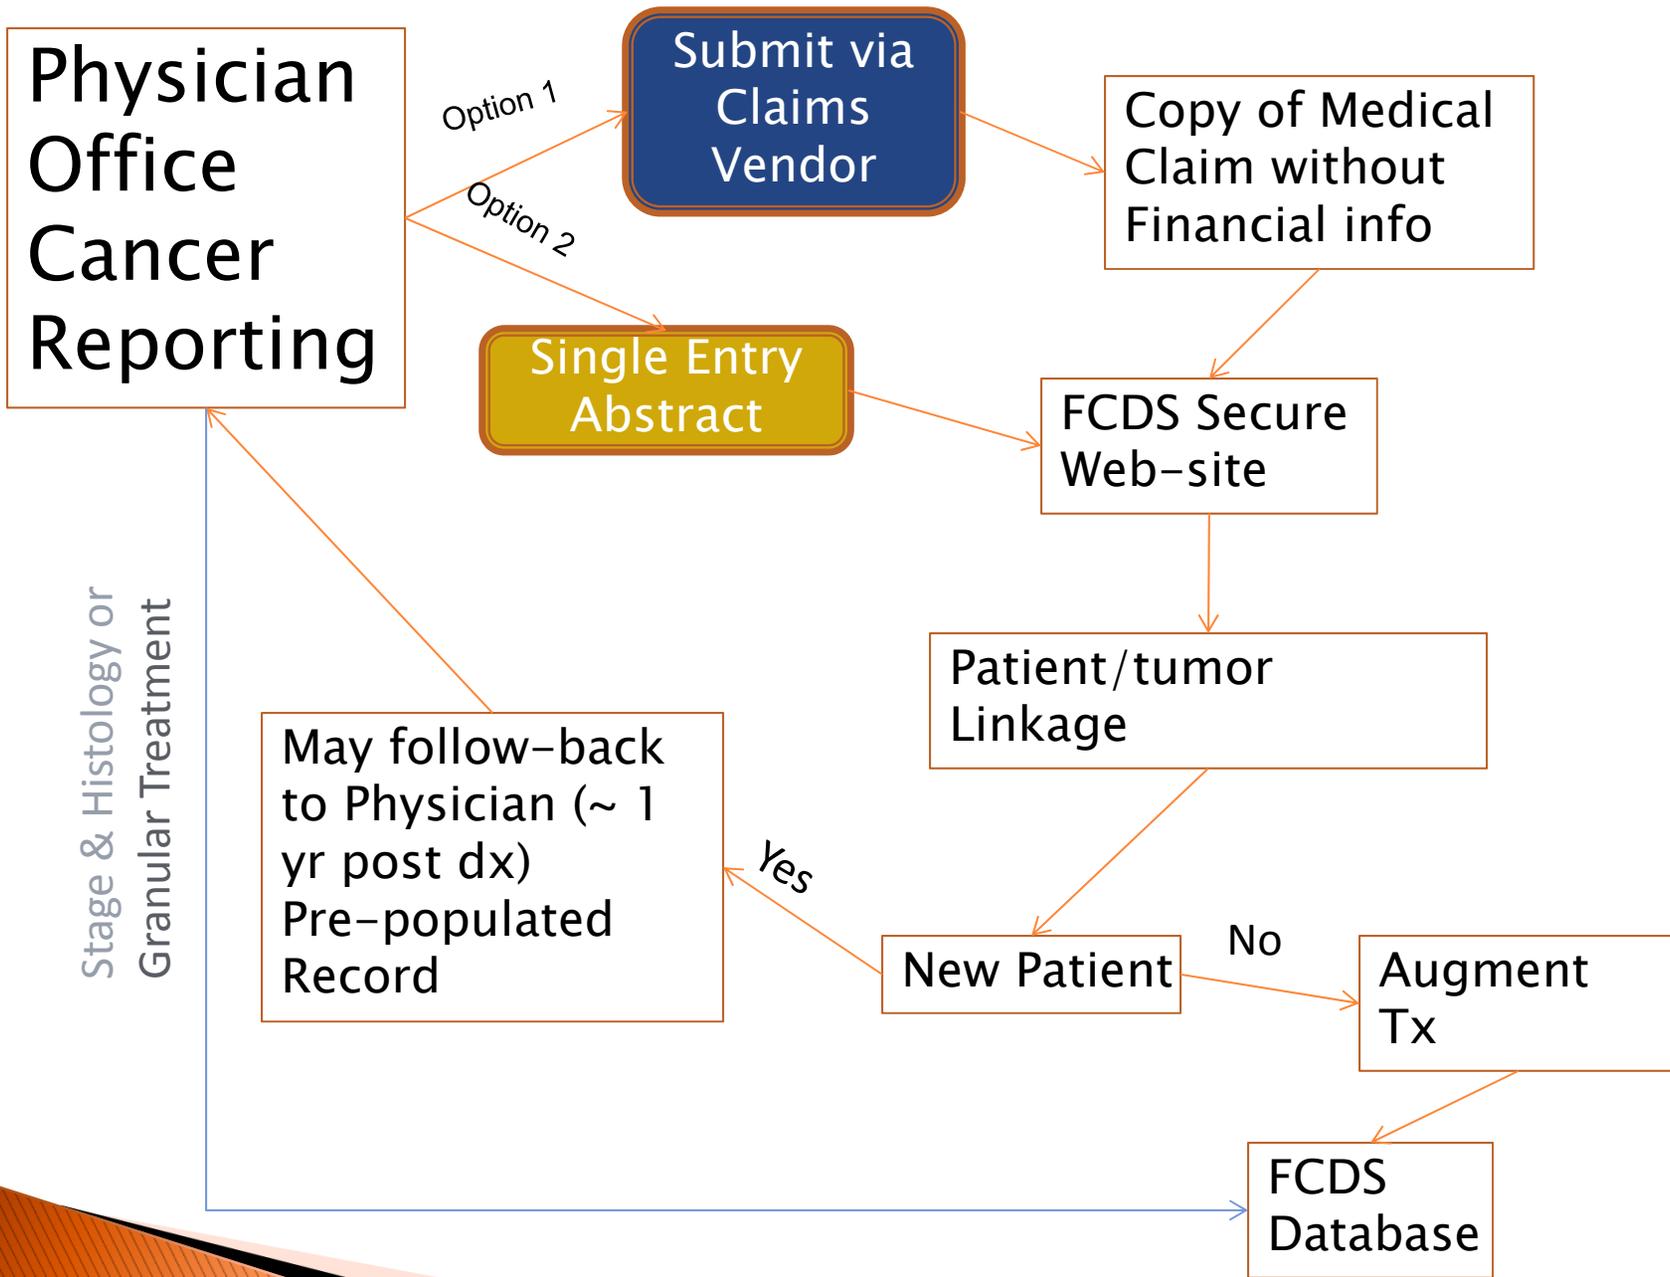

- ▶ Electronic submission of existing data
 - Medical insurance claims data
 - National standard record layout currently used by private practitioners through the state and nation
 - Patient demographic data
 - Procedure data with dates
 - Granular level treatment data
 - Omit any financial data
 - Filter on list of ICD-9 cancer diagnoses

Physician Office Reporting Using Medical Claims Data

- ▶ Data submitted to FCDS at the same time physician's normal insurance submission
- ▶ Using existing insurance industry standard record layout (837 record v5010)
 - NO FINANCIAL DATA

Physician Office Reporting Option 2

- ▶ Single entry into web-based reporting module
- ▶ Using medical claims elements
 - No professional abstractor necessary
 - Any office staff member can input data

Why Use Medical Insurance Claim Elements

- ▶ Established national standard
 - Data submission and data elements
- ▶ Can be made compatible with cancer surveillance standards
 - Crosswalk/derive treatment/procedure codes to cancer registry codes
 - Anti-neoplastic agents, RT, Hormones
 - Ancillary therapies to enhance chemo tolerance

Physician Reporting Specific Aims

- ▶ Operationalize the transfer of data using a national standard to virtually eliminate the private physician reporting burden
- ▶ FL cancer surveillance enhancement priorities
 - Identify missed case (physician office only cases)
 - Enhance treatment data
 - First course
 - Subsequent treatment
 - Active date of last contact

Pilot Tested Methodology

Pilot Test

- ▶ Florida Cancer Specialists
 - Dr. Scott Tetreault
 - Mr. Todd Schonherz
- Claims vendor: Unlimited Systems
 - Brian Glockerman

Special Thanks for their Outstanding
Support and Assistance

Florida Cancer Specialists: Pilot Test Overview

- ▶ Unlimited Systems – Claims processing
 - Upload via SFTP
 - Interval set by Unlimited Systems

- ▶ Nationally standard electronic insurance submission
 - The 837 record in a 5010 version
 - Every insurance claim in the nation is submitted using this record and layout

FCS Pilot Test – Overview

- Data uploads began in July 2012
- ~ 3.7 million rows of data submitted
 - Last quarter 2011 – present
 - Relational database – patient, diagnosis, procedures
- Received via SFTP – parsed into FCDS database
 - Translation, consolidation and analysis software developed

Case Identification using Florida Cancer Specialists Data

- ▶ 29% missed cases
- ▶ Distribution of missed cases not random
 - ~ 15% leuk/lymph
 - ~ 10% myelodysplastic syndrome
 - ~ 11% GYN and prostate

Case Augmentation using Florida Cancer Specialists Data

- ▶ 71% match rate at patient/tumor level
- ▶ Augmented date of last contact and treatment data on 100% of cases

Physician / Practice Benefits

Immediate: Follow-up Requests

- ▶ Physician office will no longer need to provide annual patient follow-up requests to ACoS hospitals
- ▶ Resulting in saving private practitioners time and money
 - FCDS will provide the date of last contact to hospital-based cancer registries
 - Date of last contact and treatment only
- ▶ Estimated savings to practice in staff time ~ .25 FTE

FCDS/Physician Partnership

- ▶ Work with physicians to identify and automate critical quality measures specific to oncology practices
 - Estimated cost savings to physician office
- ▶ FCDS will combine multiple data streams to provide most of the physician/practice specific data items utilizing the FCDS files:
 - Claims data
 - Statewide Registry
 - Histopathology reports
 - Clinical pathology test results

Getting Started

Phased Approach

- ▶ Phase 1: Physician registration
 - Using Physician Personal Identifier (PPID) located in the top right of the DOH letter, access Physician registration page and complete contact information and election of reporting option
 - If Option 1 – Electronic submission
 - If Option 2 – Single entry. Additional webinar necessary for office staff training and access to web-based form

- ▶ Phase 2: Reporting data

Physician Office Registration

Using PPID on DOH Letter

- 1) Verify information
- 2) Assign contact person
- 3) Indicate MU2 plans

4) Select reporting option

Option 1 – Electronic Submission

- Work with vendor
- Technical support to vendor
 - Data standards
 - System access
 - Transmission admin

Option 2 – Single Entry

- Work with office staff
- Technical support to staff
 - Create User Account
 - Username/Password
 - Data submission and standards

The Florida Cancer Data System (FCDS) is Florida's statewide, population-based cancer registry and has been collecting incidence data since 1981 when it was contracted by the [State of Florida Department of Health](#) in 1978 to design and implement the registry. The [University of Miami Miller School of Medicine](#) has been maintaining FCDS (<http://fcds.med.miami.edu>) since that time.

The FCDS is wholly supported by the [State of Florida Department of Health](#), the [National Program of Cancer Registries \(NPCR\)](#) of the [Centers for Disease Control and Prevention \(CDC\)](#) and the [Sylvester Comprehensive Cancer Center](#) at the University of Miami Miller School of Medicine.

Reporting for Medical Oncology, Hematology and Urology Practices

- Webinar** Register today for Physician Cancer Reporting in Florida for Medical Oncology, Hematology, and Urology February 21st, 1-2 PM, dial-in number: 800-683-4564, access code: 597965,
- Handouts** Webinar handouts - check back a couple of days before the webinar
- Manual** Florida Physicians' Cancer Reporting Manual - coming Feb. 20
- Recording** Webinar recording - check back a couple of days after the webinar
- Tutorials** Short tutorials on Physician registrations with FCDS IDEA:
- Registration** Physician Reporting Registration

Physician Vendor Reporting

Reporting for Dermatology Practices

FCDS IDEA requires free Adobe Flash/Reader software you already may have on your computer from (click for more info)

Buttons linking physician office personnel to appropriate material

First Time entering the FCDS Physician Registration: Choose Physician Practice Type

The screenshot shows a web browser window titled "FCDS - Windows Internet Explorer". The address bar contains the URL "http://192.168.144.243/scripts/fcdswebapp/PhysRptPrivate.html". The page content includes the FCDS logo and the text "Florida Cancer Data System" and "A JOINT PROJECT OF THE SYLVESTER COMPREHENSIVE CANCER CENTER AND THE FLORIDA DEPARTMENT OF HEALTH". The main text asks the user to select "Yes" or "No" based on whether they see patients in a private practice setting. The "Yes" radio button is selected. A "Continue" button is located below the form.

FCDS Florida Cancer Data System
A JOINT PROJECT OF THE SYLVESTER COMPREHENSIVE CANCER CENTER AND THE FLORIDA DEPARTMENT OF HEALTH

Some physicians only see patients in a hospital setting. If the physician(s) that you are registering only sees patients in a hospital setting, please answer **No** below and click **Continue**.

For all other types of physicians Select **Yes**, and click **Continue**.

Do you see Patients in Private Practice? Yes No

[Continue](#)

Practice Type – Classify each Florida Physician

- ▶ Member (employee) of an institutional practice
 - Hospital
 - Medical School
 - Medical/Cancer Center

- ▶ Member of a private practice
 - Sees patients in a private office
 - May also see patients in institutional setting

Input the Physician Personal Identifier found on the top right of your DOH Letter. Please keep this number secure for future reference

Registration Confirmation Message

A confirmation message is displayed stating that Physician has been registered and an email sent.

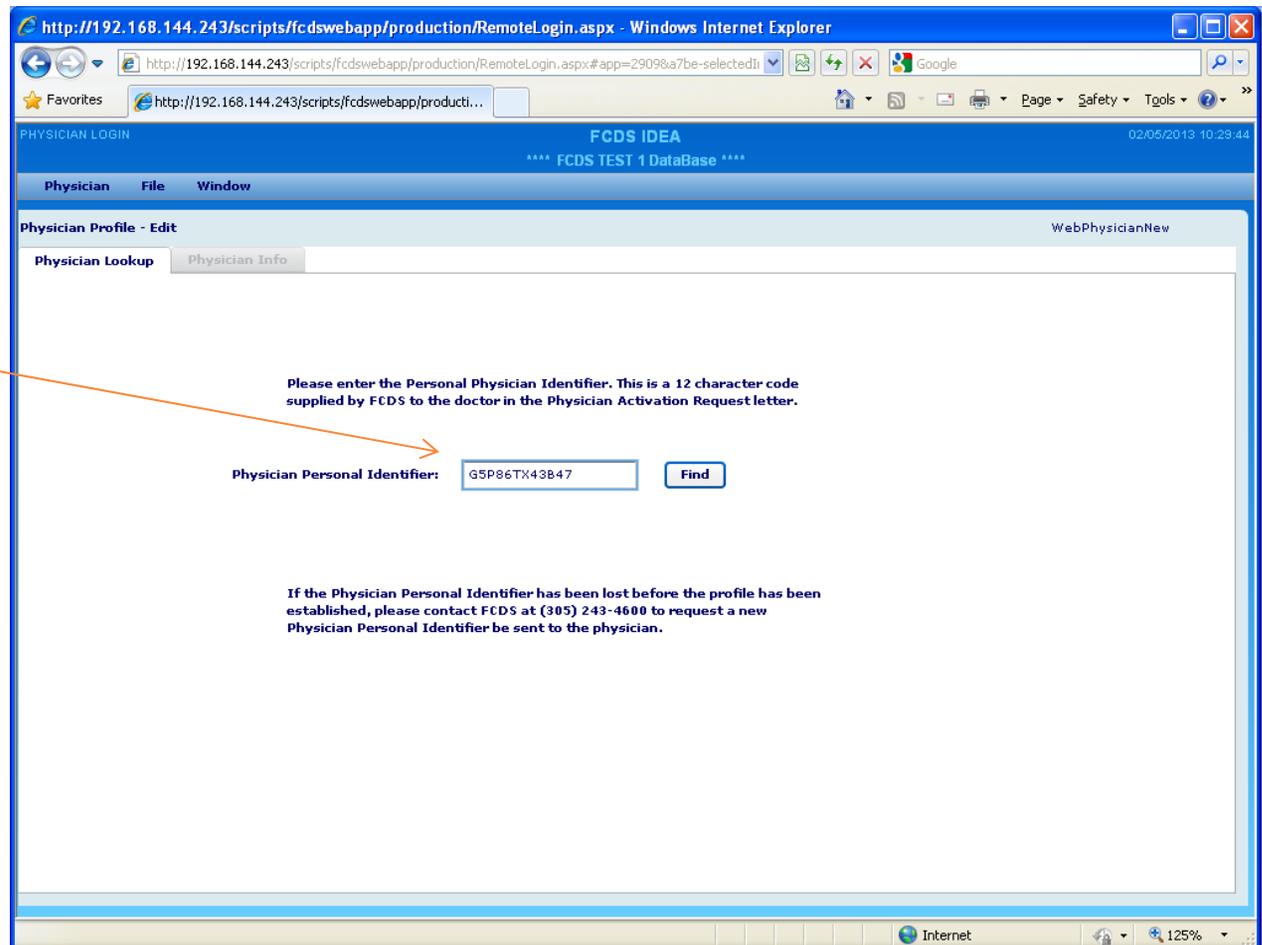

You may enter more physicians for this practice by clicking Ok. If you are only registering one physician click Exit to leave the program.

The screenshot shows a web browser window displaying the FCDS IDEA Physician Registration Confirmation Message. The message is a green box with a checkmark icon, stating: "Florida Cancer Data System - Dr. ANN PHYSICIAN has Registered Successfully! You will receive an email to confirm this registration." Below the message are two buttons: "Register Another PPID" and "Exit". The background shows the "Physician Profile - Add" form with fields for Physician Information, Contact, and Mailing Address. The Physician Information fields are filled with: Physicians NPI # 1588876411, PPID EBN96JXS3Y42, License Number 99380, First Name ANN, Middle Name E, Last Name PHYSICIAN, Specialty UROLOGIST, Physician's Email newphysician@compuace.com, and Verify Physician's Email newphysician@compuace.com. The Contact fields are: Contact First Name MANDY, Contact Email, and Verify Contact's Email. The Mailing Address fields are: Address 123 MAIN STREET, Zip 32118, State Florida, City DAYTONA BEACH, County VOLUSTIA-74, Office Phone (386)254-4199, Ext, Fax (386)947-4680. A "Save" button is at the bottom right of the form. A legend indicates that an asterisk (*) indicates a required item.

Entering Multiple Physicians

If you clicked OK you will be taken to the PPID entry screen. Input the PPID on the next Physician letter you received.

The screenshot shows a web browser window titled "http://192.168.144.243/scripts/fcdswebapp/production/RemoteLogin.aspx - Windows Internet Explorer". The address bar shows the URL "http://192.168.144.243/scripts/fcdswebapp/production/RemoteLogin.aspx#app=29098a7be-selected1". The page title is "PHYSICIAN LOGIN" and the page content includes "FCDS IDEA" and "**** FCDS TEST 1 DataBase ****". The page is titled "Physician Profile - Edit" and "WebPhysicianNew". The "Physician Lookup" tab is selected, and the "Physician Info" sub-tab is active. The main content area displays the following text: "Please enter the Personal Physician Identifier. This is a 12 character code supplied by FCDS to the doctor in the Physician Activation Request letter." Below this text is a form with the label "Physician Personal Identifier:" followed by a text input field containing "G5P86TX43B47" and a "Find" button. At the bottom of the form, there is a note: "If the Physician Personal Identifier has been lost before the profile has been established, please contact FCDS at (305) 243-4600 to request a new Physician Personal Identifier be sent to the physician." The browser's status bar at the bottom shows "Internet" and "125%".

Entering Same Contact Data for Multiple Physicians

The system keeps the previous information to make entry easier. The DOH license address is populated by default. If you want a new contact click Clear Contact Info. If you want to use the previous address click Copy Previous.

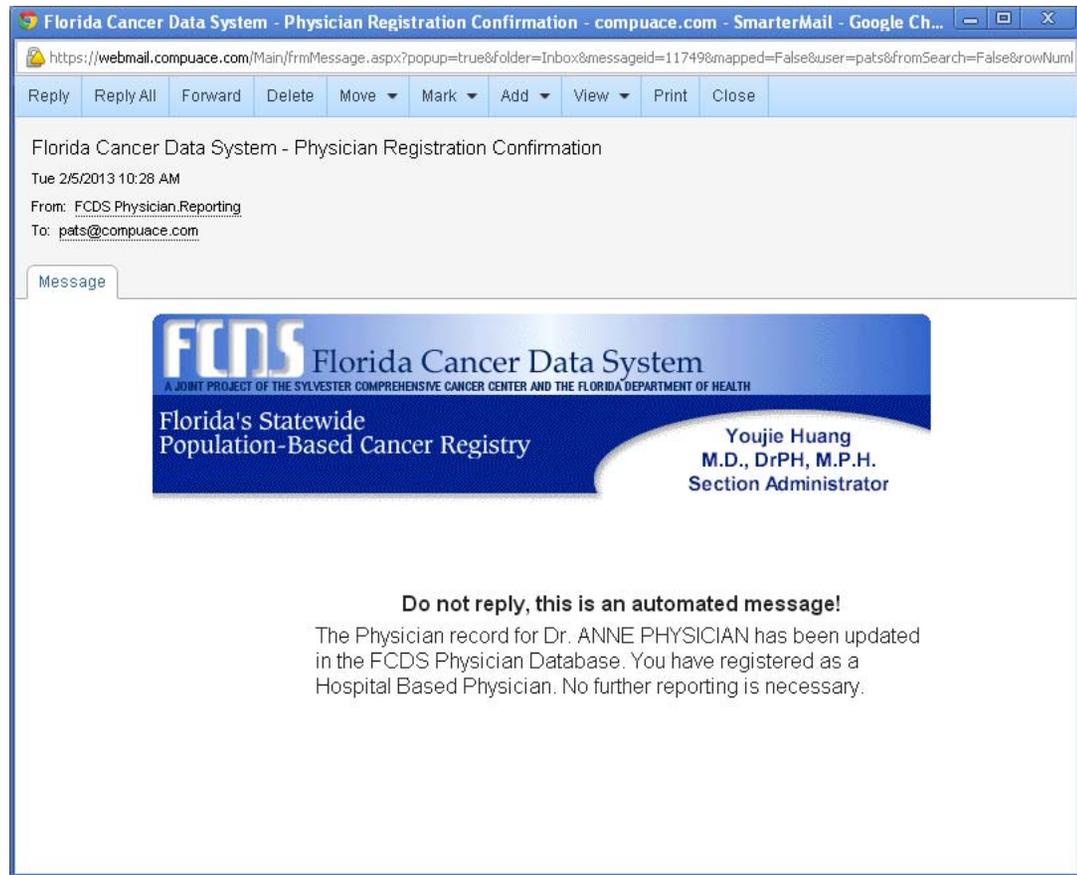

If you want to use a completely different address use the backspace key to erase

Registration and Creating FCDS IDEA User Account

The screenshot shows a web browser window titled "FCDS - Windows Internet Explorer". The address bar shows the URL "http://192.168.144.243/scripts/fcdswebapp/PhysRptPrivate.html". The page content includes the FCDS logo and the text "Florida Cancer Data System" and "A JOINT PROJECT OF THE SYLVESTER COMPREHENSIVE CANCER CENTER AND THE FLORIDA DEPARTMENT OF HEALTH". Below this, there is a registration form with the following text: "Some physicians only see patients in a hospital setting. If the physician(s) that you are registering only sees patients in a hospital setting, please answer **No** below and click **Continue**. For all other types of physicians Select **Yes**, and click **Continue**." The form has two questions: "Do you see Patients in Private Practice?" with radio buttons for "Yes" (selected) and "No"; and "Do you currently have an FCDS IDEA Login?" with radio buttons for "Yes" and "No" (selected). A "Continue" button is located below the second question.

Please click the appropriate responses

In addition to registering the physician, your office will need to have an FCDS IDEA User Account. This launches the creation of the IDEA User Account

FCDS IDEA: Create User Account – To be Completed by the Office Staff Responsible for Physician Reporting

The screenshot shows a web browser window with the URL <https://fcdsnew.med.miami.edu/> and the page title "Create FCDS User Account". The form is titled "UserAccountManager" and contains the following fields and options:

- Password ***: (8 chars min.)
- Verify Password ***: ****
- Email ***: newphysician@compuace.com
- Verify Email ***: newphysician@compuace.com
- Security Questions ***:
 - Question: First name of childhood best friend?
 - Answer: dotty
- User Type ***: Physician's Office(non-de)
- First Name ***: MANDY
- Middle Name**: (empty)
- Last Name ***: WENTWORTH
- Company**: (empty)
- Title**: (empty)
- Mailing Address ***: 123 MAIN STREET
- Zip ***: 33016
- City ***: MIAMI LAKES
- State ***: Florida
- Phone ***: (305)623-5500
- Ext**: 103
- Fax**: (empty)
- Alt. / Mobile Phone**: (empty)

At the bottom of the form, there is a "Submit" button, a "Close" button, and a "View Webinar" link. A legend indicates that an asterisk (*) denotes a required item. The browser window also shows the date and time "02/15/2013 11:40:36".

All fields with * are required fields.

Requires a valid e-mail.

E-mail addresses are unique may only be used once.

Completing your IDEA User Account Creation

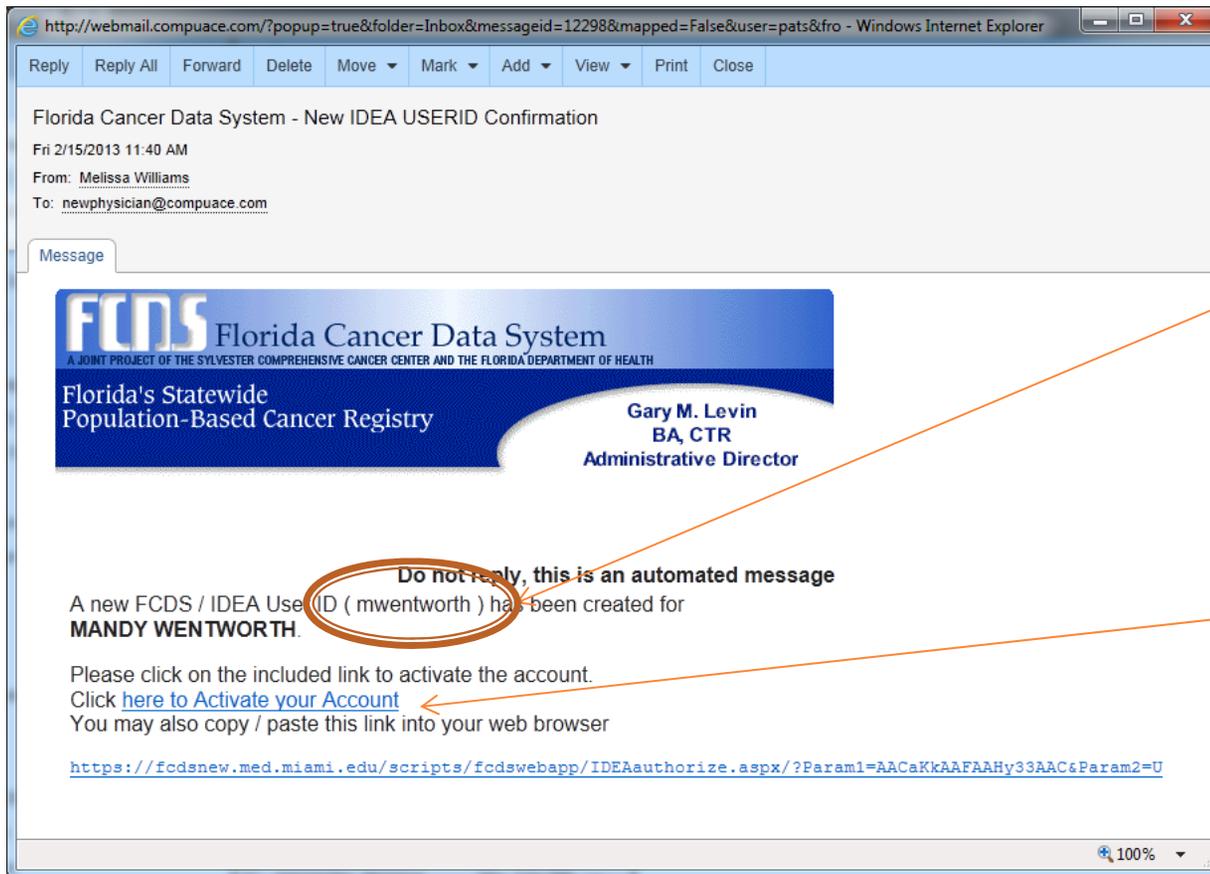

The screenshot shows a web browser window with the URL <https://fcdsnew.med.miami.edu/> and the page title "Create FCDS User Account". The form is titled "Create FCDS User Account" and is managed by "UserAccountManager". It includes fields for Password, Verify Password, Email, and Verify Email. A "Security Questions" section is also present, with a dropdown for "First name of childhood best friend?" and an "Answer" field containing "dotty". The "User Type" is set to "Physician's Office(non-de)". A modal dialog box titled "IDEA Account Created" is overlaid on the form, displaying a green checkmark and the message: "mwentworth has been Created in the FCDS / IDEA system. An email has been sent to the following address: newphysician@compuace.com with instructions on making the account active. Please be sure to check your junk mail or spam folder if necessary." Below the form, there are fields for "First Name" (MANDY), "Company", "Title", "Mailing Address" (123 MAIN), "Zip" (33016), "City" (MIAMI LAKES), "State" (Florida), "Phone" ((305)623-5500), "Ext" (103), and "Fax". A table of location options is provided, and a "View Webinar" link is at the bottom right.

Select Type of Upload

The screenshot shows the FCDS IDEA web application interface. The 'Vendor' menu is open, showing options like 'Update User Profile', 'HTTPS File Upload Claims Data', and 'SFTP Vendor Request'. A red circle highlights the 'Vendor' menu and its sub-items. Below the menu is a 'Recent System Activity' table and an 'Items Needing Attention' table.

Recent System Activity

SFTP Data Transfer

The screenshot shows a web browser window titled "IDEA *FCDS* - Google Chrome" with the URL "https://fcdsnew.med.miami.edu/scripts/fcdswebapp/production/Main.html?nocache=true". The page header includes "EMANUAL BYTES", "FCDS IDEA", and "Florida Cancer Data System - INQ" with a timestamp of "02/14/2013 13:05:38". A navigation menu contains "Physician", "File", and "Window". The main content area is titled "Welcome - Dashboard" and includes a status bar "StatusModule". A notification states "Your password will expire in 366 days (FEB 15th 2014)". The primary focus is an "SFTP Vendor Request" form with the following text and fields:

SFTP Vendor Request

SFTP is a secure FTP protocol that allows the secure (encrypted) transfer of information, typically over the Internet. FCDS allows the ability to upload Physician Claims information in ANSI 837 - 5010 format. In order to upload data using SFTP, FCDS requires that an account be setup.

To request access to upload Physician Claims Information please fill out the information below. FCDS will create an SFTP account. When complete you will be contacted with the credentials needed to access this account.

Company Name:

Contact Name:

Contact Phone Number: Extension:

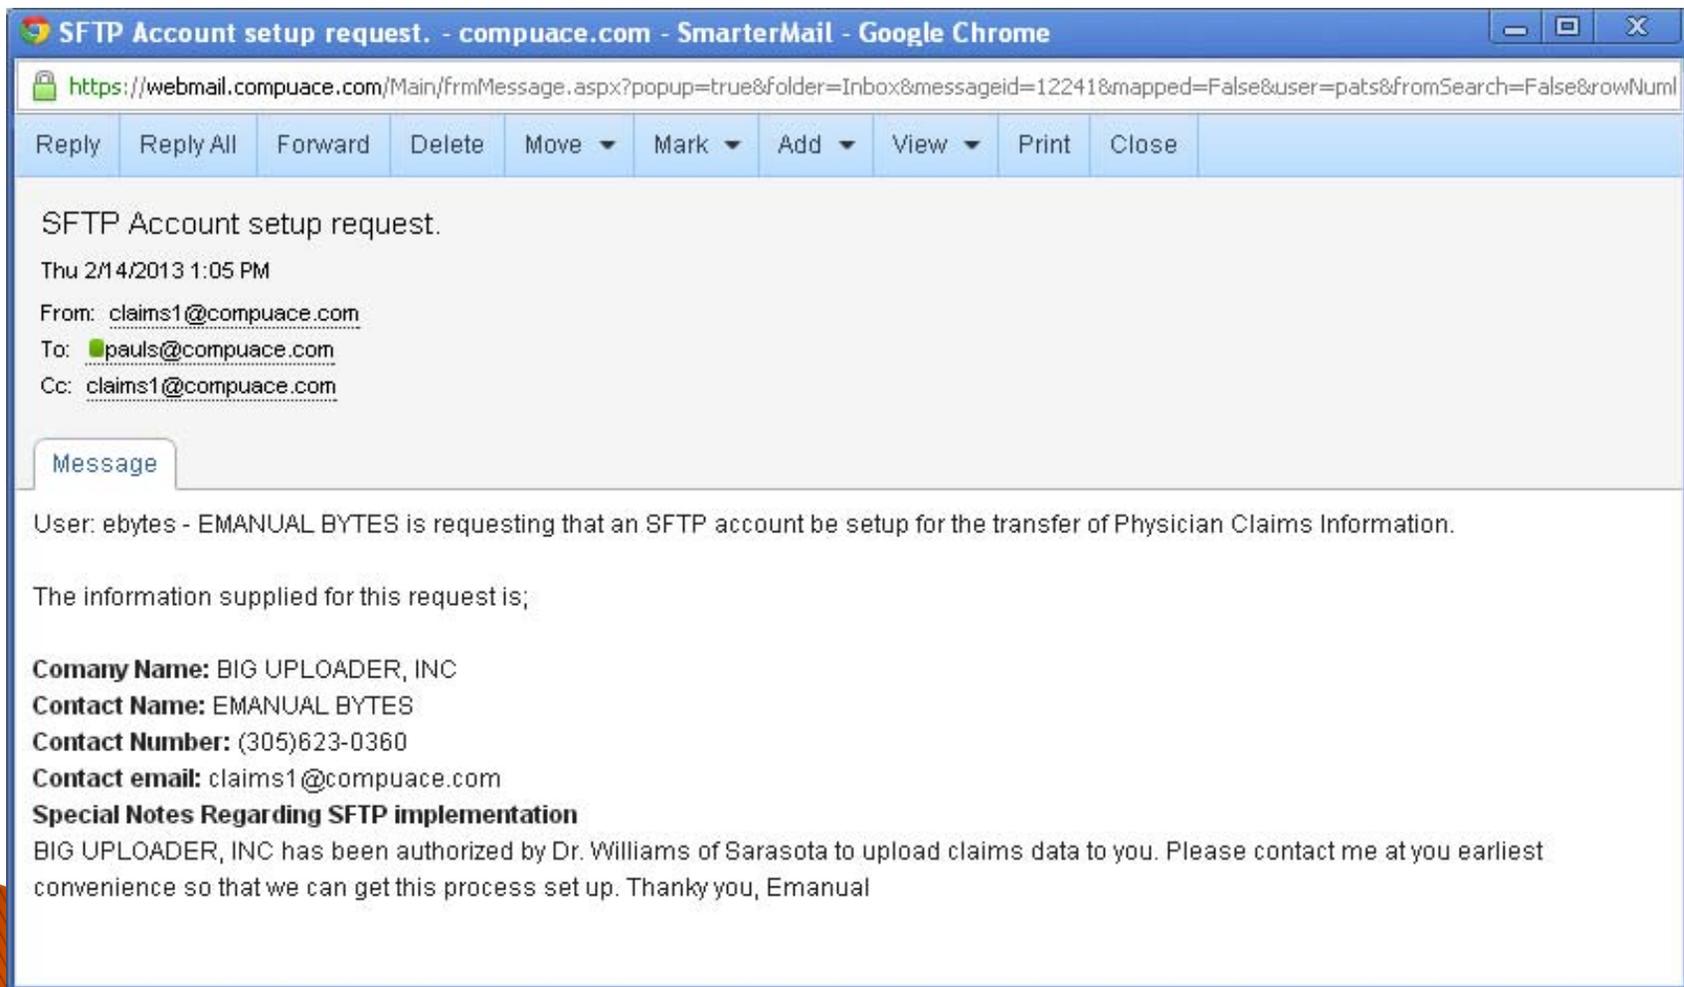

Contact Email:

Special Notes Regarding SFTP implementation

BIG UPLOADER, INC has been authorized by Dr. Williams of Sarasota to upload claims data to you. Please contact me at you earliest convenience so that we can get this process set up.

Thank you,
Emanual

Vendor Generates e-mail to FCDS. FCDS will Contact Vendor for details

HTTPS Data Transfer

The screenshot shows a web browser window titled "IDEA *FCDS* - Windows Internet Explorer". The address bar shows the URL: <http://192.168.144.243/scripts/fcdswebapp/production/Main.html>. The page content includes a navigation menu with "Physician", "File", and "Window" options. The main content area is titled "Welcome - Physician Dashboard" and contains a password expiration notice: "Your password will expire in 352 days. (JAN 23rd 2014)". Below this, there are three radio button options under the heading "I want to:":

- Register/Modify a Physician
- Enter Claims Data for a Registered Physician
- HTTPS File Upload Claims Data**

The third option is circled in orange. Below the options is a text box with instructions: "Scan these log/error messages from the last month or click show All to see all of them. If you see an access time or error you don't recognize, contact FCDS." Below this is a "Recent System Activity" section with a "Show All" button. The activity is shown in a table:

Date / Time	Action
02/05/2013 08:52:13	0:Login: pstearns
02/05/2013 07:49:08	0:Login: pstearns
02/04/2013 21:43:51	249:Update User Profile menu item chosen.
02/04/2013 21:43:44	0:Login: pstearns
02/04/2013 21:35:12	0:Login: pstearns
02/04/2013 19:29:49	Web Physician Add Data: PUYUSUPP / 1937 / pstearns
Record Count:	148

The browser's status bar at the bottom shows "Done", "Internet", and "125%".

Browse to file; Select Options; click “Upload”

The screenshot shows a web browser window titled "https://fcds.med.miami.edu/?nocache=true - IDEA *FCDS* - Windows Internet Explorer". The page header includes "GARY LEVIN", "FCDS IDEA", "Florida Cancer Data System", and the date "02/20/2013 11:23". A navigation menu contains "IDEA User", "Full Abstract Processing", "File Uploads/Entry", "Inquiry", "Follow Back", and "Reports/Inquiries". The main content area is titled "Upload MD837 Claims Data" and contains the following elements:

- Instruction: "Enter the full path + filename. Ex: C:\MD837.txt. Use the browse button to find/double-click-on/open file:"
- File input field with a "Browse" button.
- Data Type: "5010 Data" (selected with a radio button).
- Options section with two checkboxes:
 - Upload file is in Windows compressed ZIP format (faster uploads)
 - TEST Upload - tests transmission mechanism, data is removed after
- Script to execute: "Upload_MD837.pl" (entered in a text field).
- Contact information: "Contact Mark Rudolph (MRudolph@med.miami.edu) for questions about upload."
- Buttons: "Upload..." and "Cancel".

Single Entry

- ▶ Medical insurance claims elements
- ▶ Complete one form per patient seen in your practice
- ▶ No software to purchase
 - Data entry via FCDS web-based single entry module
- ▶ Any office member can complete the form
