Radiation Therapy Id Project – Data Access Manual

ACKNOWLEDGEMENTS

The Florida Cancer Data System gratefully acknowledges the following sources for their contribution to this manual:

- Centers for Disease Control and Prevention/National Program of Cancer Registries (CDC/NPCR)
- Florida Department of Health (DOH)
- University of Miami/Sylvester Comprehensive Cancer Center (UM/SCCC)
- North American Association of Central Cancer Registries (NAACCR)
- National Cancer Institute/Surveillance, Epidemiology & End Results Program (NCI/SEER)
- Commission on Cancer/American College of Surgeons (COC/ACoS)

FCDS would like to especially thank all of the dedicated registrars and abstractors who have worked with FCDS over the years for their hard work and countless contributions. Without their input the Florida Cancer Data System would not be positioned at the national forefront in statewide cancer registration.

Beginning January 1, 2003, all Florida Radiation Therapy Centers must send a list of patient identifiers to the Florida Cancer Data System. There are two methods of submitting these data items: file upload or single web entry.

With the file upload method, you must send a file in a specific format and layout. With the single web entry method, you must enter and save each record on the web data entry screen.

Radiation Therapy Id Project – Data Access Manual

Tab separated file layout for uploads via FCDS IDEA

Field#	Item Name	Maximum Field Length
1.	FCDS Facility Number	4
2.	Patient ID / Medical Record #	12
3.	Patient Social Security Number	9
4.	Patient Last Name	25
5.	Patient First Name	14
6.	Patient State	2
7.	Patient Zip Code	5
8.	Patient Date of Birth	8
9.	Date of Encounter	8
10.	Patient Sex	1
11.	Patient Race	2
12.	ICD-9-CM or ICD-10-CM Diagnosis Code	7 ***

File structure notes:

- Files must be in ASCII, with one CR/LF sequence at end of each record.
- Fields are separated by 1 tab character, beginning after field 1 and no tab after field 12. Since there are 12 fields, each record must have exactly 11 separating tabs. Files with extra/missing tabs - in any record - will be rejected.
- No embedded CR/LF, TABS other than as field separators, or other control characters in text fields.
- No quotes "" around fields, just data.
- Dates are in YYYYMMDD format – do not add “/” or “-“. Dates will be validated (don't submit 99999999 or 20030229)..
- No "Header" records with variable names, just data.
- All fields are required. Do not use blanks for missing information. Required fields that are missing/unknown, such as Sex, have codes for missing.
- Field lengths are the maximum allowed length for that field. Don't add extra trailing spaces to field.
- Files may be compressed before upload using the DOS/Windows ZIP compression standard. PKZIP or WINZIP are examples of programs that produce the correct compressed format. Do not add a zip password.
- ***** The ICD Code is validated based on Encounter Date. Dates after 9/30/2015 require ICD-10 Codes. Earlier Dates require ICD-9 Codes.**
