FCDS is GOLD!

This award recognizes the population-based cancer registries that have achieved excellence in the areas of completeness of case ascertainment, quality of the data and timeliness.

THANK YOU TO ALL OUR REGISTRARS AND COLLEAGUES FOR THEIR CONTRIBUTION TOWARDS ACHIEVING THIS EXCELLENCE AWARD!
CONSOLIDATED FOLLOW BACK REMINDER

The deadline for completion of your Consolidated Follow Back is fast approaching. Consolidated Follow Back is a combination of AHCA, Ambulatory Surgery Center (AMBI) and the Death Clearance follow back process into a single follow back queue.

The deadline to complete the review and submission of any missed cases is October 15, 2012.

A brief training module has been created to walk through the new Consolidated Follow Back process and can be accessed through our web site at:

http://fcds.med.miami.edu/downloads/Teleconferences/2012/ConsolidatedFollowBack.wmv

Should you have any questions, please contact your Field Coordinator at (305) 243-4600.

NCRA UPDATED 2012 GUIDELINES ON INFORMATICS

NEW NCRA update 2012 Guidelines on Informatics which can be useful for the CTR exam.

NCRA's updated resourceful publication (May 2012; 259 pages) includes information about informatics that a hospital registrar will find practical.

PDF is available at no charge for NCRA Members - $0.

http://www.ncra-usa.org/i4a/pages/index.cfm?pageID=3664

TWELVE SEER RESOURCES FOR CANCER REGISTRARS
http://www.seer.cancer.gov/registrars/

1. Ask a SEER Registrar
2. SEER Inquiry System (SINQ)
3. 2012 Hematopoietic and Lymphoid Neoplasms Rules and Database
5. 2012 Casefinding Lists
6. SEER*Rx
7. Required SEER Site-Specific Factors for Collaborative Stage
8. Data collection Answers from the CoC, NPCR, SEER Technical Workgroup
9. Multiple Primary and Histology Coding Rules
10. SEER Abstracting Tool (SEER*Abs)
11. SEER Training Website
12. SEER Self Instructional Manuals for Cancer Registrars

THE 2012 HEMATOPOIETIC DATABASE AND MANUAL

An update to the Hematopoietic Database has been released. Along with updates to the data, this release gives users the ability to switch between the 2012 and the 2010 data.

To download the desktop version to your PC, go to https://seer.cancer.gov/tools/heme/download and follow the instructions. You must agree to the terms and register with your personal information. If you are already registered, go to the bottom of the page and enter your email address and you will get an e-mail with a direct link to the download without having to re-enter all of your personal information.

It is recommended that you uninstall previous versions of the Hematopoietic Database before installing Version 2.1.

For more information on the changes contained in this update, see http://seer.cancer.gov/tools/heme/revisions.html.
ONLINE HELP VERSION 12.2 FOR CASES DIAGNOSED IN 2012

A new version of Registry Plus Online Help (RPOH) has been released by CDC's Division of Cancer Prevention and Control. RPOH is part of the Registry Plus software suite for cancer registries. This new version is available at

RPOH is an integrated, user-friendly help system for cancer registrars and others who work with cancer data. Developed in support of CDC's National Program of Cancer Registries (NPCR), RPOH facilitates the abstraction of cancer cases by centralizing standard abstracting and coding manuals required by cancer registry standard setters into one accessible, easy-to-use resource. The manuals within RPOH are cross-referenced, indexed, and context-linked, making the information readily available to the user, so RPOH can eliminate the need to refer to printed manuals.

The following manuals are included in this release:

- **NAACCR Data Standards and Data Dictionary** for record layout version 12.2
- Online help for the NAACCR Edits Metafile V12.2B
- FORDS (**Facility Oncology Registry Data Standards**) 2012
- **Collaborative Stage Data Collection System** [CS]: **User Documentation and Coding Instructions, Version 02.04** (including both Parts I and II)
- **SEER Program Coding and Staging Manual 2011**
- ICD-O-3, Introductory Material and Morphology Numerical Lists
- Multiple Primary and Histology Coding Rules (updated through 9/27/11)

The design of all Registry Plus modules will continue to follow guidelines such as those developed by NAACCR and the Registry Plus Users Group (RPUG).
2012-2013 FCDS Educational Webcast Series

FCDS is pleased to see the great interest and attendance in reference to our 6-part educational series. The webcasts have been tailored to the Florida cancer registrar and cancer case abstractor with emphasis on the 2012 Florida Cancer Reporting Requirements. The first webcast presented in mid August focused on 2012 FCDS Cancer Reporting Requirements, a review of key information from several presentations related to FCDS and National reporting guidelines, and clarifications for 2012 cases from the FCDS Annual Meeting. The series will continue with concentration on specific cancer sites or site groups. Webcasts are held on Thursdays from 1pm-3pm. Please review the dates below.

</tr>
</tbody>
</table>

Each webcast will provide background and instruction sufficient for registrars to understand the anatomy and surrounding structures for each cancer site/site group, risk factors associated with cancers of each site/site group, CSv02.04 coding for each site/site group, and ASCO/NCCN Clinical Practice Guidelines for Treatment of each site/site group. This series builds upon information presented at the 2012 FCDS Annual Meeting in St. Petersburg, Florida in July. There is no fee and each 2-hour webcast will be recorded and available on the FCDS website, [http://fcds.med.miami.edu/inc/teleconferences.shtml](http://fcds.med.miami.edu/inc/teleconferences.shtml).

FCDS has applied for CEU credits (2 hours for each webcast) through NCRA. NCRA CEU numbers and credit hours will be published in a future monthly memo.
The Florida Cancer Data System is happy to announce that for another year we will be presenting the NAACCR Cancer Registry and Surveillance Webinar, 2012-2013 series at seven locations throughout Florida:

- Boca Raton Regional Hospital (Boca Raton)
- Moffitt Cancer Center (Tampa)
- M.D. Anderson Cancer Center Orlando (Orlando)
- Shands University of Florida (Gainesville)
- Gulf Coast Medical Center (Panama City)
- Baptist Regional Cancer Center (Jacksonville)
- Florida Cancer Data System (Miami)

Special thanks to the hosting facilities for their participation and support. For a complete description of the webinars, click here: [https://fcds.med.miami.edu/scripts/naaccr_webinar.pl](https://fcds.med.miami.edu/scripts/naaccr_webinar.pl)

Please go to the FCDS website to register online for your location of choice. Registration link is: [https://fcds.med.miami.edu/scripts/naaccr_webinar.pl](https://fcds.med.miami.edu/scripts/naaccr_webinar.pl). A separate registration will be required for each webinar. The number of participants allowed to be registered for each webinar will be dependent on space availability. For more information, please contact Steve Peace at 305-243-4601 or speace@med.miami.edu.

The Florida Cancer Data System (FCDS) is Florida's statewide, population-based cancer registry and has been collecting incidence data since 1981 when it was contracted by the State of Florida Department of Health in 1978 to design and implement the registry. The University of Miami Miller School of Medicine has been maintaining FCDS (http://fcds.med.miami.edu) since that time.

The FCDS is wholly supported by the State of Florida Department of Health, the National Program of Cancer Registries (NPCR) of the Centers for Disease Control and Prevention (CDC) and the Sylvester Comprehensive Cancer Center at the University of Miami Miller School of Medicine.
